

# Trust the facts.

Recently, there have been inaccurate statements in the press about our Fios build. The information below will help you understand the reality of our success and ongoing commitment to Fios.

## The facts: Our overall investment.

- We've invested \$30 billion in our footprint to enable Fios.
- This is the largest all-fiber deployment in the United States.
- We've enabled Fios for over 16 million households and small businesses.

## The facts: Our New York City build.

- In New York City, we've invested \$3.5 billion in Fios.
- We completed our prems passed requirement in October of 2014.
- We passed all prems, in all five boroughs of NYC.
- We sell and install about 7,000 Fios orders a day with nearly 2,000 in New York.
- Over 2 million customers can get Fios service now and that number grows every day.
- We're continuing to build out the thousands of multi-tenant buildings across NYC.
- Our commitment to other cities such as Philadelphia, Newark, Paterson, Pittsburgh and Washington DC is equally strong.

**Because of your hard work, we delivered on our commitment in New York City. Thank you for all you do – and continue to do – for our customers.**
